

We believe that readers, players, referees, and gamers deserve a clear statement on what constitutes Fair Use of their **Traveller** role-playing game rules and background materials. This Fair Use Policy now also incorporates **2300AD**, **Twilight: 2000** and **Dark Conspiracy**.

Traveller, **2300AD**, **Twilight: 2000**, and **Dark Conspiracy** in all of their forms and editions, are copyrighted. Copyright protects the publishers (Mongoose Publishing and its licensees) from unauthorised copying or publication. **Traveller**, **2300AD**, **Twilight: 2000** and **Dark Conspiracy** and associated words and terms are trademarks. Trademark protection protects the publishers from unauthorised use of the marks.

Fair Use

Copyrights and trademarks are not meant to prevent players, referees, gamers, and readers from enjoying their copies of **Traveller**, **2300AD**, **Twilight: 2000** and **Dark Conspiracy**. "Fair Use" is the term which allows just such enjoyment.

We have a liberal Fair Use Policy. If your activity is non-commercial, you can make copies to support playing the game, you can scan copies for your computer, you can write short programs and spreadsheets which automate processes within the game. You can make copies of pages as handouts for players. You can make web pages in support of Traveller.

The key word is non-commercial. If you are selling what you copy or reproduce, then you violate Fair Use. The details of Fair Use are covered in the FAQ below.

Fair Use Explicitly Applies Equally to all Traveller editions, from out-of-print releases by **Game Designers' Workshop**, **Imperium Games**, **QuikLink's Traveller20**, **Steve Jackson Games' GURPS Traveller** or **Mongoose Publishing's** first edition of **Traveller**, to actively supported editions like the current releases of **Traveller** from **Mongoose Publishing**. It also **Applies Equally to all 2300AD** and **Twilight: 2000** and **Dark Conspiracy** editions, from out-of-print releases by **Game Designers' Workshop**, **QuikLink's 2320AD**, **93 Games Studio's Twilight: 2013**, or **Mongoose Publishing's** first edition of **2300AD**, to actively supported editions like the current releases of **2300AD** and **Dark Conspiracy** from **Mongoose Publishing** or **Twilight: 2000** from **Free League**.

FAQ FREQUENTLY ASKED QUESTIONS

We receive questions about what we can allow and what we can't allow in order to protect our trademarks and copyrights.

Here are some answers to FAQs (May 1, 2025).

1. May I create my own, original works and put them on a web or ftp site or share them with my friends?

Yes, however the Copyright/Trademark holder, Mongoose Publishing, requires the following.

- a) You don't charge for it.
- b) You include the following site-wide disclaimer in the text of a story or article, on a web site:

The Traveller, 2300AD, Twilight: 2000 and Dark Conspiracy games in all forms are owned by Mongoose Publishing. Copyright 1977 - 2025 Mongoose Publishing. Traveller is a registered trademark of Mongoose Publishing. Mongoose Publishing permits web sites and fanzines for this game, provided it contains this notice, that Mongoose Publishing is notified, and subject to a withdrawal of permission on 90 days notice. The contents of this site are for personal, non-commercial use only. Any use of Mongoose

Publishing's copyrighted material or trademarks anywhere on this web site and its files should not be viewed as a challenge to those copyrights or trademarks. In addition, any program/articles/file on this site cannot be republished or distributed without the consent of the author who contributed it.

It is not necessary that this boilerplate text be on the main page, just so long as there is a pointer to it; an abbreviated main page statement can be:

"The Traveller game in all forms is owned by Mongoose Publishing. Copyright 1977 - 2024 Mongoose Publishing."

"The 2300AD game in all forms is owned by Mongoose Publishing. Copyright 1986 - 2024 Mongoose Publishing."

"The Twilight: 2000 game in all forms is owned by Mongoose Publishing. Copyright 1984 - 2024 Mongoose Publishing."

"The Dark Conspiracy game in all forms is owned by Mongoose Publishing. Copyright 1991 - 2024 Mongoose Publishing."

c) You notify Mongoose Publishing (it is sufficient to e-mail sales@mongoosepublishing.com) saying "I have a Traveller/2300AD/Twilight:2000/Dark Conspiracy Web site at this URL: <http://www.somewhere.org/some.html>" or other similar message.

2. May I post the contents of a Challenge Magazine article online or on a web site?

Yes, as long as you have the permission of the original author and our disclaimer is present. The following message about this is from our licensing department:

Mongoose Publishing will give permission to post Challenge articles on Traveller, 2300AD, Twilight: 2000 and Dark Conspiracy to web sites provided the author of the article has also granted permission. In observance of the magazine article's author's rights, we cannot give permission without the author's permission. Regrettably, Mongoose Publishing is not able to locate authors for you. The site must carry the proper Mongoose Publishing copyright/trademark acknowledgment.

If the article was authored by Marc Miller, John Harshman, Loren Wiseman, or Frank Chadwick, you have permission.

3 May I rewrite the game in my own words, scan parts of the book, or create any other derivative works.

No.

Our reasoning is this:

If Mongoose Publishing does not establish standards for fair use, and does not police any use that is made, then Mongoose Publishing runs the risk of losing an enforceable ownership right. I can't use your car, even if you aren't using it. I need your permission. I can look at it, admire it, even write about it, but I can't take it or re-paint it without permission. Intellectual property is a special case, but the idea is much the same.

You can write about the **Traveller, 2300AD, Twilight: 2000** or **Dark Conspiracy** universes, and put it on your web site... but you can't reproduce the rules (or reproduce re-writes of the rules, etc.) except for about a page (because we give permission to do that, provided you post the proper acknowledgment). Some publishers just say "You can't post anything." We are trying to have a kinder, gentler approach.

We understand that you love the game and want to see it promoted. We believe in supporting you the best way we can. Right now, we encourage you to create your own original works and have them follow our policies, which are the fairest in the industry.

But you can't just go rewrite the books in your own words.

4 What is considered Fair Use of your material?

About a page at a time.

The site must carry the proper Mongoose Publishing copyright/trademark acknowledgment. For posting of text or material from printed books and modules, Mongoose Publishing permits inclusion of some material and mention of trademark names (Traveller, and other titles). Our permission does not extend to wholesale or complete republication of our texts on-line (for obvious reasons). Limit your

republication of texts to short passages (essentially a page or less of text). Our policy is to not be burdensome in our requirements, while still protecting our ownership of the text to these games. We appreciate game player support of our titles and we work to make involvement in these games interesting and fun.

This permission allows you to cite a portion of the book without copying the entire book. For instance, for an adventure about the Spinward Marches where you need to repeat a section about Regina, you could cull it from various texts and reproduce it. You could use a quote or two, or if need be extend that to about a page. However you cannot say "Here is page one of the T4 Core Rules book." "Here is page two of the T4 Core Rules book.", etc.

4a Can I make a PDF of Traveller/2300AD/Twilight: 2000/Dark Conspiracy Stuff? Can I make scans of Traveller/2300AD/Twilight: 2000/Dark Conspiracy pages?

Yes. Subject to Fair Use, you can make scans or PDFs of pages from books you own. If you are making scans or PDFs for some project you are doing, there should be no problem.

If you are PDFing a whole book (or more than a few pages), you've gone too far.

5 May I scan in a piece of artwork or a map for use?

Some artwork was created by the artist under a "work for hire" contract where the ownership of the art becomes the property of the publisher. Some artwork is provided on a limited use contract, in particularly photographs. If the artist created the works as work for hire for GDW (usually staff artists at GDW), then Mongoose Publishing has the rights to say "Yes" or "No" to the question. If it was done by the artists on their own time, in particular for photographs, it may have been done on a limited use base, and that artist may own the copyright. So here is what we can allow:

Artwork such as equipment items, vehicles, charts, maps and logos were created for GDW and Mongoose Publishing and we have the full rights to them. Atmosphere pieces, other illustrations and cover art, you need permission from the artists. Mongoose Publishing regrets that we cannot contact the artist for you.

As a special case, you may reproduce covers credited to Steve Venters, or Chris Fosse.

Mongoose Publishing will allow you to use those items which we have the rights to, but in limited terms. You must include a Copyright for each piece used similar to:

This map is Copyright © 1977 - 2025, Mongoose Publishing All Rights Reserved. Licensed for individual use. [or current date, as time goes by]

You cannot scan entire sections of art in an attempt to reproduce a book, but if you want to display a map on your web page to annotate an adventure you are writing, or you need to display a tank for an article that you have composed about it, then its OK to use it. You also must still have the site-wide copyright/trademark acknowledgment/disclaimer.

6 What if I have a Special Case?

Contact Mongoose Publishing for a specific ruling.

“Finally, you agree that you will hold harmless and indemnify Mongoose Publishing if Mongoose Publishing is ever sued for intellectual property infringement as a result of anything you make available. This is lawyer-speak which we don’t much like to use, but a lawyer insisted upon it. What this means is really simple: If you are sued by some other person or corporation for stealing copyrighted work, and they decide to add Mongoose Publishing as a defendant because lawyers do that sort of thing, you will pay Mongoose Publishing’s attorney’s fees, costs, and any damages ultimately awarded. The best way to avoid this is to avoid distributing intellectual property which someone else owns, whether it is a ‘hacked’ proprietary computer program, another game-writer’s idea, or a near-transcript of a film or TV episode. If you must steal from other writers, steal from the already-published works of writers who died before 1900, as such works are probably not protected.”
